“ *Ann Morgan was a force of nature! I love this woman. She was a part of my family. I could just sit and listen to her talk. She knew so much about the world, politics, society, and I was lucky to have known her. She touched my heart in many ways. She love me and my family and would call to check on us. The world was a much better place to have had her in it and I will miss her to the moon and back. Holly, Trey, Merry and family, I am so glad that you shared her with us. She will be remembered as long as I draw breath.*
