“ I met David while he was still in high school. We operated a large ham radio contest station in Broomall PA. That was the start of a 50 year friendship. I knew David professionally as well as personally. More than once we met up at Phila. International Airport as one of us was going or coming back from a business trip. We traded emails regularly up to the last. As others have said he was quiet, humble, helpful and compassionate. I will miss him as does a large part of the Amateur community. “ David was one of the most humble men I have ever known. I believe this to be a great quality and it always was a huge part of why he was the Family Man he always was known to be. Amateur Radio has lost a true Mentor and Operator. RIP David KM4D
